

GrECo Webinar Cyber risks in Food & Agri industry

We are pleased to invite you to the GrECo webinar “Cyber risks in Food & Agri industry: the latest loss examples, how to prevent and financially protect?”

Agenda

Speech 1. Stephan Eberlein, GrECo Group Practice Leader Liability & Financial Lines

- Why do you need a cyber insurance – what is covered
- Impact of war in Ukraine on cyber insurance
- Steps to get cyber insurance efficiently

Speech 2. Rob Lloyd, Director ASL

- How does cyber insurance work in claims handling
- Case Study: Cyber-attack - food and agriculture
- Obligations to consider in the event of a claim

Speech 3. Lukáš Novák - Lead Analyst of AXENTA CyberSOC and Head of the AXENTA CSIRT Team.

- Security Operation Center (SOC) as a Service: The best you can have to prevent cyber-attack.

About our speakers in brief

Stephan Eberlein has 11 years of experience in Liability and Financial Lines. He holds a degree in law and IT. Stephan heads GrECo’s group wide Liability and Financial Lines department with a special focus on cyber insurance.

Robert Lloyd is a qualified chartered accountant. Insurers appoint him to resolve financial sector crime and professional indemnity matters internationally. Rob also heads ASL’s cyber offering and is widely engaged in quantifying business interruption exposures.

Lukáš Novák provides L2 analysis of security incidents and is responsible for AXENTA CyberSOC development activities in the areas of threat intelligence, incident response and analysis. He has many years of experience in security monitoring and incident response in heterogeneous networks with tens of thousands of devices. Since 2018, he has regularly participated in cyber-security incident response exercises not only in CZ and SK, but throughout the EU.

The webinar is free of charge and there is no limit to the number of participants, so feel free to share this invitation with your colleagues that might be interested.

We look forward to your participation!
